

## **WARRANTY CONDITIONS**

Fassi Gru SpA warrants its products free from defects of construction for a period of 12 months for all components and for 36 months for structural components only (base, column, booms).

The warranty period is reduced to 24 months for structural components for cranes utilized with hydraulic clamshell bucket or similar implement (excluded scrap grapple and log grab).

The warranty period starts from the date of delivery to the final purchaser.

The warranty consists of the free replacement or repair of those inefficient or non usable components due to defects of construction ascertained and acknowledged by the producer or by its delegate, possible delays in the execution of the works do not determine any right of damages reimbursement or extension of the warranty period.

No reimbursement for down time due to the immobilization of the unit is acknowledged for forced inactivity consequent of the breakdown and the repair.

The expenses concerning the transfer of the unit to the authorized service center for the repair are on behalf of the purchaser.

The warranty for non Fassi fabricated components or implements is the one offered by its respective producer.

The consumable material is excluded from the warranty (oil, grease, sliding shoes, etc.).

The warranty on replaced materials follows the one of the unit.

The warranty is void if the crane:

- Is not utilized in conformity with the instructions;
- Is modified, repaired or disassembled, also in part, outside the service center of the seller or belonging to the commercial and service organization of the producer;
- The installation on the vehicle is carried out by a service center not belonging to the commercial and service organization of the producer without the previous authorization of Fassi Gru SpA;
- The crane defects are caused by accidents carelessness, lack of periodic maintenance, utilization of non original parts, that is to say not produced and/or not supplied, tested and sold by the producer;
- The crane is utilized with non compatible implements.

**The tampering of all sealed safety check valves release the producer from any responsibility and warranty.**

What is above expressly stated represents the only warranty granted by the producer and replaces in all effects any other warranty established by law.

It consequently expressly excludes the right of the purchaser to request the termination of the contract, the replacement of the crane, the refund of damages or reduction of the price.

The warranty request will be taken into consideration only on presentation of the warranty certificate duly filled in and signed by the final purchaser...

Fassi Gru SpA has to receive its copy of the warranty certificate, via the seller or the distributor, within 30 days from the delivery date to the final purchaser
