Rear tipper

D-MAX

Steel rear tipper

| Code | Boards | Weight | External Dimensions |
|---|--------------------|--------|---------------------|
| M 155 025 010 | Anodized Aluminium | 390 kg | 2400x1830 |
| 300 mm high anodized aluminium sideboards | | | |
| Aluminium cab protection with ladder rack | | | |

"SL" steel rear tipper according to EC standard, fully cataforized and powder coated (colours: RAL 7016 grey), steel sub-frame and loading deck, 300 mm high anodized aluminium tailgate with automatic opening, 2 winches, rear ladder rack, thermoplastic mudguards, rear pillars, electrohydraulic power pack with push bottom panel with cable inside cab, lights according to standard regulations, chromed telescopic cylinder, tool box, homologated "Archetti" tow bar.

Steel rear tipper and retrocab storage box

| Code | Boards | Weight | External Dimensions |
|---|--------------------|--------|---------------------|
| M 155 025 011 | Anodized Aluminium | 410 kg | 1890x1830 |
| 300 mm high anodized aluminium sideboards | | | |
| Aluminium cab protection with ladder rack | | | |

Steel rear tipper according to EC standard, fully cataforized and powder coated (colours: RAL 7016 grey), steel sub-frame and loading deck, 300 mm high anodized aluminium tailgate with automatic opening, 2 winches, rear ladder rack, thermoplastic mudguards, rear pillars, electrohydraulic power pack with push bottom panel with cable inside cab, lights according to standard regulations, chromed telescopic cylinder, tool box, homologated "Archetti" tow bar.

Supply and mounting of retrocab storage box external dimensions 470x800x1800 mm aluminium, plastic internal mat, aluminium hinges, central shelf bracket, double opening, locks euroinox.

Steel rear tipper

| Code | Boards | Weight | External Dimensions |
|---|--------------------|--------|---------------------|
| M 155 025 012 | Anodized Aluminium | 340 kg | 1890x1830 |
| 300 mm high anodized aluminium sideboards | | | |
| Aluminium cab protection with ladder rack | | | |

Steel rear tipper according to EC standard, fully cataforized and powder coated (colours: RAL 7016 grey), steel sub-frame and loading deck, 300 mm high anodized aluminium tailgate with automatic opening, 2 winches, rear ladder rack, thermoplastic mudguards, rear pillars, electrohydraulic power pack with push bottom panel with cable inside cab, lights according to standard regulations, chromed telescopic cylinder, tool box, homologated "Archetti" tow bar.

Three-way tipper

Alloy three-way tipper

| Code | Boards | Weight | External Dimensions |
|---------------|--------------------|--------|---------------------|
| M 155 021 144 | Anodized Aluminium | 390 kg | 2400x1830 |

300 mm high anodized aluminium sideboards

Aluminium gantry with rope stretching rings

Aluminium three-way tipper according to EC standard, loading deck of aluminium staves, 300 mm high anodized aluminium tailgate, aluminium cab protection with ladder rack and rope stretching rings, galvanized handles and hinges, galvanized rear pillars, 4 integrated foldaway handles on the edge of platform (2+2), thermoplastic mudguards, electrohydraulic power pack with push bottom panel with cable inside cab, chromed telescopic cylinder, galvanized licence plate, homologated "Archetti" tow bar.

Alloy three-way tipper and retrocab storage box

| Code | Boards | Weight | External Dimensions |
|---|--------------------|--------|---------------------|
| M 155 021 164 | Anodized Aluminium | 410 kg | 1920x1830 |
| 300 mm high anodized aluminium sideboards | | | |
| Aluminium gantry with rope stretching rings | | | |

Aluminium three-way tipper according to EC standard, loading deck of aluminium staves, 300 mm high anodized aluminium tailgate, aluminium cab protection with ladder rack and rope stretching rings, galvanized handles and hinges, galvanized rear pillars, 4 integrated foldaway handles on the edge of platform (2+2), thermoplastic mudguards, electrohydraulic power pack with push bottom panel with cable inside cab, chromed telescopic cylinder, galvanized licence plate, homologated "Archetti" tow bar.

Supply and mounting of retrocab storage box external dimensions 470x800x1800 mm aluminium, plastic internal mat, aluminium hinges, central shelf bracket, double opening, locks euroinox.

Alloy three-way tipper

| Code | Boards | Weight | External Dimensions |
|---|--------------------|--------|---------------------|
| M 155 021 145 | Anodized Aluminium | 340 kg | 1920x1830 |
| 300 mm high anodized aluminium sideboards | | | |
| Aluminium gantry with rope stretching rings | | | |

Aluminium three-way tipper according to EC standard, loading deck of aluminium staves, 300 mm high anodized aluminium tailgate, aluminium cab protection with ladder rack and rope stretching rings, galvanized handles and hinges, galvanized rear pillars, 4 integrated foldaway handles on the edge of platform (2+2), thermoplastic mudguards, electrohydraulic power pack with push bottom panel with cable inside cab, chromed telescopic cylinder, galvanized licence plate, homologated "Archetti" tow bar.

Dropside body with aluminium floor

| Code | Boards | Weight | External Dimensions |
|---------------|--------------------|--------|---------------------|
| M 155 009 011 | Anodized Aluminium | 180 kg | 2400x1830 |

300 mm high anodized aluminium sideboards

Aluminium cab protection with ladder rack and rope stretching rings

Aluminium dropside body, aluminium sub-frame, loading deck of aluminium staves, 300 mm high aluminium tailgate, 4 integrated foldaway handles on the edge of platform (2+2), predisposition for rear ladder rack, galvanized handles, thermoplastic mudguards, galvanized licence plate, lights according to standard regulations, homologated "Archetti" tow bar.

Dropside body with marine plywood floor

| Code | Boards | Weight | External Dimensions |
|---------------|--------------------|--------|---------------------|
| M 155 009 012 | Anodized Aluminium | 195 kg | 2400x1830 |

300 mm high anodized aluminium sideboards

Aluminium cab protection with ladder rack and rope stretching rings

Aluminium dropside body, aluminium sub-frame, marine plywood floor, 300 mm high aluminium tailgate, 4 integrated foldaway handles on the edge of platform (2+2), predisposition for rear ladder rack, galvanized handles, thermoplastic mudguards, galvanized licence plate, lights according to standard regulations, homologated "Archetti" tow bar.

Dropside body with aluminium floor

| Code | Boards | Weight | External Dimensions |
|---------------|--------------------|--------|---------------------|
| M 155 009 013 | Anodized Aluminium | 130 kg | 1920x1830 |

300 mm high anodized aluminium sideboards

Aluminium cab protection with ladder rack and rope stretching rings

Aluminium dropside body, aluminium sub-frame, loading deck of aluminium staves, 300 mm high aluminium tailgate, 4 integrated foldaway handles on the edge of platform (2+2), predisposition for rear ladder rack, galvanized handles, thermoplastic mudguards, galvanized licence plate, lights according to standard regulations, homologated "Archetti" tow bar.

Dropside body with marine plywood floor

| Code | Boards | Weight | External Dimensions |
|---------------|--------------------|--------|---------------------|
| M 155 009 014 | Anodized Aluminium | 150 kg | 1920x1830 |

300 mm high anodized aluminium sideboards

Aluminium cab protection with ladder rack and rope stretching rings

Aluminium dropside body, aluminium sub-frame marine plywood floor, 300 mm high aluminium tailgate, 4 integrated foldaway handles on the edge of platform (2+2), predisposition for rear ladder rack, galvanized handles, thermoplastic mudguards, galvanized licence plate, lights according to standard regulations, homologated "Archetti" tow bar.

Dropside body with aluminium floor

| Code | Boards | Weight | External Dimensions |
|---------------|--------------------|--------|---------------------|
| M 155 009 009 | Anodized Aluminium | 115 kg | 1600x1830 |

300 mm high anodized aluminium sideboards

Aluminium cab protection with ladder rack and rope stretching rings

Aluminium dropside body, aluminium sub-frame, loading deck of aluminium staves, 300 mm high aluminium tailgate, 4 integrated foldaway handles on the edge of platform (2+2), predisposition for rear ladder rack, galvanized handles, thermoplastic mudguards, galvanized licence plate, lights according to standard regulations, homologated "Archetti" tow bar.

Dropside body with marine plywood floor

| Code | Boards | Weight | External Dimensions |

WARRANTY CONDITIONS

Guarantee has validity of 12 months. All reparations must be previously authorized by us.

Any warranty will be recognized in case of tampering and when it will not be respected its procedure:

- Warranties requests have to be sent at service@titanequipment.it including copy of the registration card, photos and repair estimate.

A **Claims related to hydraulic components (P.T.O., cylinders) must follow the below procedure:**

- Purchase of part to replace at our warehouse dept.
 - Forwarding to us of the replaced part (accompanied by related warranty card) which will be sent to our supplier.
 - Acceptance or rejection of the guarantee by the supplier.
 - Application to the customer of the same decisions set by the supplier.
-

This price list cancels and replaces all previous.

Valid from 01/09/2017.

Please send your request at:
